RASHA RASHEED
Software Engineer

PROFILE

An experienced software engineer who is focused on ceaseless improvement, equipped for working under pressure, both as a project and people manager, talented in legitimate thinking and complying with time constraints.

Around four years of involvement in the software field has taught me a great deal about resilience, adaption and transformation.

Having gained invaluable experience in developing ERP applications, participated in all stages of SDLC and automation. I am driven by a fervent work ethic and genuine desire for self-improvement
